

Syllabus

FIRST PAPER : GENERAL STUDIES

Topics included in this book

1. **General Science and Environment**

Questions on General Science and Environment (Environmental Ecology, Biodiversity & Climate Change) will cover general appreciation and understanding of science including matters of every day observation and experience as may be expected of a well educated person who has not made a special study of any particular scientific discipline.

2. **Current Events of National & International Importance (in a Separate book)**

In current events knowledge of significant National and International level will be tested.

3. **History of India and Independent India**

In History, questions of general knowledge related to social, economic and political aspects will be asked. Also, there will be questions on Indian National Movement and Development of Independent India.

4. **(a) Geography of India**

There will be questions of general knowledge relating to Physical, social and economic geography. It will also include questions on Indian Agriculture and Natural resources. There will be questions pertaining to demography and census of India.

(b) General Geographical awareness of world.

5. **Indian Polity and Economy**

Political system and constitution of the country, Panchayati Raj, social system, sustainable economic development, elections, political parties, plans, industrial development, foreign trade and economic and financial institutions.

6. **Sports**

Important games and sports tournaments, Awards, personalities and Renowned Sports Institutions of M.P., India, Asia and World.

These topics included in separate book

7. **Geography, History and Culture of M.P.**

There will be questions related to the development of Mountains, rivers, climate, Flora and Fauna, Minerals transportation in the Geography of Madhya Pradesh. It will also have questions relating to important dynasties of M.P., Contribution of important dynasties in the History & Culture of Madhya Pradesh, There will be questions on Tribals, Arts, Architecture, Fine Arts and Historical personalities of M.P.

8. **Polity and Economy of M.P.**

Political system, Political parties and elections, Panchayati Raj, Social system and sustainable economic development of M.P. This will also include questions on Industry, Plans, Economic programmes, business, demography and census of M.P.

9. **Information and Communication Technology**

Questions pertaining to characteristics, uses, and terminologies such as website, online, search engine, e-mail, video mail, chatting, video conferencing, hacking, cracking, virus and cyber crime.

10. **Scheduled Caste & Scheduled Tribe (Prevention of Atrocities) 1989** (No. 33 of 1989) and the **Protection of Civil Rights Act, 1955** (No. 22 of 1955).

11. **The Protection of Human Rights Act, 1993 (in a Separate book)**

History of India and Indian National Movement

Ancient Indian History

Indian Prehistory

- The fossils of the early human being have not been found in India. A hint of the earliest human presence in India is indicated by stone tools of about 250,000 BC obtained from the deposits.
- However, recent reported artifacts from Bori in Maharashtra suggest the appearance of human beings in India around 1.4 million years ago.
- From their first appearance to around 3000 BC humans used only stone tools for different purposes.
- This period is, therefore, known as the Stone Age, which has been divided into Paleolithic (early or Old Stone) Age, Mesolithic (Middle Stone) Age, and Neolithic (New Stone) Age.

The Paleolithic Age in India (500,000 BC – 8000 BC)

- In India it developed in the Pleistocene period or the Ice Age.
- The earliest traces of human existence in India go back to 500,000 BC.
- The Paleolithic sites are spread in practically all parts of India except the alluvial plains of Indus and Ganga.
- The people of this age were food gathering people who lived on hunting and gathering wild fruits and vegetables.
- Man during this period used tools of unpolished, undressed rough stones and lived in cave and rock shelters. They had no knowledge of agriculture, fire or pottery of any material.
- They mainly used hand axes, cleavers, choppers, blades, scrapers and burin. Their tools were made of hard rock called 'quartzite'. Hence Paleolithic men are also called 'Quartzite Men'.
- Homo sapiens first appeared in the last of this phase.
- It has been pointed out that Paleolithic men belonged to the Negrito race.
- The Paleolithic Age in India has been divided into three phases according to the nature of stone tools used by the people and also according to the nature of change in the climate – Early or lower Paleolithic, Middle Paleolithic and Upper Paleolithic.

- The Early Paleolithic Age covers the greater part of the Ice Age. Its characteristic tools are hand axes, cleavers and choppers. Such tools have been found in Soan and Sohan river valley (now in Pakistan) and in the Belan Valley in the Mirzapur district of UP. In this period climate became less humid.
- Middle Paleolithic Phase is characterized by the use of stone tools made of flakes mainly scrapers, borers and blade like tools. The sites are found in the valleys of Soan, Narmada and Tungabhadra rivers.
- In the Upper Paleolithic Phase, the climate became warm and less humid. This stage is marked by burins and scrapers. Such tools have been found in AP, Karnataka, Maharashtra, Bhopal and Chhota Nagpur plateau.

The Mesolithic Era History (8000 BC – 6000 BC)

- In this age, climate became warm and dry. Climate changes brought about changes in fauna and flora and made it possible for human beings to move to new areas. Since then, there haven't been major changes in the climate.
- The characteristic tools of the Mesolithic Age are known as Microliths-pointed, crescentic blades, scrapers, etc, all made of stone.
- The people lived on hunting, fishing and food gathering; at a later stage they also domesticated animals.
- The last phase of this age saw the beginning of plane cultivation.
- Various Mesolithic sites are found in the Chhotanagpur region, Central India and also south of the Krishna River.
- In the Belan valley of Vindhya, all the three phases of the Paleolithic followed by the Mesolithic and then by the Neolithic have been found in sequence. Similar is the case with the middle part of the Narmada valley.

The History of Neolithic Era (6000 BC – 1000 BC) :

- In India Neolithic Age is not earlier than 6000 BC and at some places in South and Eastern India; it is as late as 1000 BC.
- During this phase people were again depending on stone implements. But now they used stones other than quartz-
